SUMMARY

I'm Adrian, a fourth-year Computer Science student at Pampanga State University. I build software systems, robust APIs, and AI integrations—technology engineered to work for real people. Open to software engineering internships for 2026–2027.

SKILLS

Languages: JavaScript, TypeScript, PHP, Python, C++, SQL, HTML/CSS
AI & Intelligence: AI Integration, LLM APIs (OpenAI / Claude / Gemini), Prompt Engineering, Structured JSON Outputs, RAG & Embeddings
Backend & data: REST APIs, Database design, Supabase/Postgres, RBAC, Data validation
Frontend & mobile: React, React Native / Expo, Responsive UI, Accessibility
Tools: Git/GitHub, Docker

PROJECTS

Magilas Gym — gym management system

POS / admin developer · Web app, RBAC, QR entry, Inventory · 2025 · magilasgym.com

- POS and admin workflows for the front desk and the owner.
- Role-based access control so staff and admin capabilities stay separate.
- QR-based member entry logging tied to the member record.
- Inventory, subscription, income/expense, and machine-maintenance reporting.

HealthyaSat — health-claim fact checker

Backend / API developer · Browser extension, API, Docker · 2025 · healthyasat.fit

- Claim extraction and the API path between the extension and the knowledge base.
- Classification into certified, unverified, or false using a DOH/WHO-informed knowledge base.
- Severity-based flagging and database insertion for highlighted claims.
- Docker-based development infrastructure and backend/API integration.

Iahbrary — reading tracker

Solo developer · Expo, TypeScript, Supabase · 2026 · github.com/medinaadrianpanlilio-design/iahbrary

- Timed reading sessions with start/end pages, notes, and pace calculations.
- A personal library with want-to-read, reading, and finished states.
- Reviews, highlights, weekly stats, and reading streaks.
- Email-only authentication and owner-only Supabase RLS.
- An offline session queue that keeps a session safe when the network drops.

SkySprout — a live Roblox garden HOBBY

Solo hobby project · Roblox, Luau, DataStore · 2026 · roblox.com/games/117628058304479

- A five-step tutorial that teaches buy, plant, harvest, sell, and exhibit.
- Offline earnings and crops that mature while the player is away.
- A global 44-minute weather cycle with stacking Wind, Thunder, Cosmic, and Golden mutations.
- Server-authoritative growth, coin grants, persistence, and visitor safety.

EDUCATION

BS Computer Science, Pampanga State University (formerly Don Honorio Ventura State University). Expected 2027. Dean's Lister, 1st–3rd year.

EXPERIENCE

Work Immersion — Municipality of Sta. Ana (Senior High School). Supported basic administrative and document-printing tasks.
